To Whom It May Concern:

I am writing in support of Work Opportunities Unlimited. Although my son has not been with their program for very long, our experience to date has been extremely positive. Work Opportunities provides the communication and commitment that I want on an ongoing basis and works with me and my son, along with the school, to make sure his program is followed and he is learning the skill sets he needs to be successful.

The individual working with my son is a good match for him. She engages him and makes him want to do more. She is professional and sincere in wanting my son to succeed.

I would highly recommend Work Opportunities as a service provider. I am pleased with our overall experience to date. They show a high degree of professionalism and they are well organized. Work Opportunities has exceeded my expectations in playing such an important role in my son's future.

Sincerely,
Debra Paine
